FM Broadcast Stations,	)	RM-8160
(Oakhurst & Firebaugh, California	)	

COMMENTS

I, Patrick R. Ryan submit these comments in support of the Notice of Proposed Rulemaking regarding the substitution of Channel 234A for 276A in Firebaugh, California and the substitution of Channel 276A for 296A in Oakhurst, California. These proposed substitutions would allow KAAT-FM to increase its effective radiated power to 6 kilowatts.

I, Patrick R. Ryan file these comments to express support and continued interest in the proposed substitution. As owner of KMMM-FM Channel 297A in Madera, California which is a first adjacent channel to KAAT-FM 296A in Oakhurst, California, this proposed substitution will lead to an opportunity to resolve a great deal of technical interference with KMPH Channel 298B in Hanford, California. The movement of 296A in Oakhurst to 276A would allow 297A to apply for 296A, thereby allowing KMMM-FM to move to a second adjacency to the 298B. These changes will improve to a relative degree the ability of each station to meet its community service obligations without technical interference.
